### **DETAILED ACTION**

1. The terminal disclaimer filed on May 26, 2004 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of US patent 6,436,424, and US application 10/222,819 has been reviewed and is accepted. The terminal disclaimer has been recorded.

2. In view of the papers filed May 26, 2004, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by adding Richard Thomas.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

### ***Reasons for Allowance***

3. Applicants' remarks submitted May 26, 2004 are persuasive to put the application in condition for allowance. Particularly, the correction of inventorship of instant application disqualifies Vogel (WO 99/44643) as prior art. As to "capable of" recited in claims 20, applicants' remarks are persuasive, particularly, in view of the definition of chemical modification at pages 11-12 herein.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shengjun Wang whose telephone number is (571) 272-0632. The examiner can normally be reached on Monday to Friday from 7:00 am to 3:30 pm.
